

'We'll save you \$500 off your bill or we'll pay it for you'

Terms and Conditions

1. Offer only valid for a system containing a panel output of 9.9kW and above.
2. Offer only valid for solar systems;
 - (i) connected to the internet;
 - (ii) with production and consumption monitoring activated;
 - (iii) connected to the Enphase Enlighten application for the entirety of the relevant billing cycle.
3. Relevant billing cycle defined as any 90 day period in the first 365 days following installation of solar which 90 day period shall be determined at the discretion of Penrith Solar Centre.
4. Offer only valid for dwellings with a 'smart metre' installed capable of reading solar import/export.
5. Offer only valid for systems with a self-consumption rate of 25% or above in the relevant billing cycle. Self-consumption rate defined as the percentage of solar energy output consumed instantaneously by the dwelling and not exported.
6. Savings to be calculated by use of the Enphase Enlighten monitoring platform which shall be sufficient evidence of said saving in every case.
7. Offer subject to and conditional on a rolling average of 110 sunny days in the 365 days immediately following solar installation. "Sunny day" defined as any day in which there occurs no less than 3.9 peak sun hours as recorded by the Bureau of Meteorology.
8. In the event that a total saving of at least \$500 cannot be demonstrated in a relevant billing cycle then Penrith Solar Centre must pay the difference between the savings and \$500. For example if a customer saves \$250 in a billing cycle as evidenced by the Enphase Enlighten monitoring platform and in accordance with these terms and conditions then Penrith Solar Centre must pay the relevant customer \$250.
9. Any claim by any customer must be made no earlier than 367 days after installation of solar and not later than 547 days after installation of solar.
